Addis Ababa, Ethiopia

SUMMARY

Backend-focused full-stack developer specializing in Java and Spring Boot, with additional experience in Node.js/Express and Flutter for cross-platform mobile development. Builds secure, database-driven applications and RESTful APIs with an emphasis on clean, maintainable architecture. B.Sc. in Computer Science (GPA 3.47/4.0, Distinction), with a solid foundation in data structures and algorithms.

EDUCATION

Hawassa University May 2022 – Jun 2025
B.Sc. in Computer Science | GPA: 3.47/4.0 – Graduated with Distinction Hawassa, Ethiopia

- ▶ Relevant coursework: Software Engineering, Object-Oriented Programming, Data Structures & Algorithms (C++), Advanced Programming (Java), Computer Security
- ▶ Additional studies: Artificial Intelligence (Python & Lisp), Web Development (PHP & JavaScript), Abstract Algebra

EXPERIENCE

Ashara Software and ICT Solutions Aug 2025 – Present
Full Stack Software Developer Addis Ababa, Ethiopia

- ▶ Built **Mesob Equb**, a bilingual (Amharic/English) digital equb – rotating savings – platform with Telebirr payment integration, live lottery-style draws, and automated SMS notifications in 4 languages; live in production with 105+ rounds completed to date.
- ▶ Built and deployed **Ashara Task Manager**, the company's internal task and workflow management system, now in active daily use across the team.
- ▶ Designed REST APIs, authentication, and relational database schemas in Java/Spring Boot and Node.js/Express powering both platforms end to end.
- ▶ Partnered with **[product/QA/design]** to translate requirements into production-ready releases on a regular sprint cadence.

PROJECTS

Mistir – File Encryption Software (Desktop)

- ▶ Developed a secure AES-256 based file encryption desktop application for protecting sensitive user data.
- ▶ Implemented file compression before encryption, reducing encrypted file size by **[X]**% and improving storage efficiency.
- ▶ Integrated MySQL database support for application configuration and metadata management.

Car Rental System with 3D Visualization (Final Year Project – Team Lead)

- ▶ Led a team of **[N]** to build a full-stack MERN application with secure authentication and role-based admin access.
- ▶ Integrated Stripe and Chapa payment gateways for online transactions.
- ▶ Integrated a Gemini AI chatbot to enhance user interaction and customer support.

Genzeb – Budget and Expense Planner (Mobile)

- ▶ Developed an offline-first budget and expense tracking mobile application built with Flutter.
- ▶ Implemented expense categorization, filtering, and visualization features for at-a-glance spending insight.
- ▶ Integrated a local SQLite database for persistent offline storage with no dependency on network connectivity.

TECHNICAL SKILLS

Programming Languages Java, Dart (Flutter), JavaScript, Python, C++
Backend Spring Boot, Node.js, Express.js, Flask (Basic)
Frontend HTML, CSS, React.js, Flutter
Databases MySQL, MongoDB, Firebase Firestore, SQLite
Tools & Platforms Git, GitHub, GitHub Actions, Postman, Insomnia, Android Studio
Deployment & Hosting DigitalOcean, cPanel, Vercel
Operating Systems Windows, Kali Linux, Ubuntu
